New Product: Wireless Lighting in a Box!

Lightronics now offers Wireless Lighting in a Box Systems! There are two Wireless lighting packages available; the first offers a Lightronics TL-5024DMX Wireless console and a new Lightronics XC-42 Wireless dimmer along with the standard pieces (PARs, lamps, gels and stand). The second package is a 4 channel add on system which also offers your standard pieces along with one XC-42 Wireless dimmer. The Wireless option has an inside range of 1400 feet and an outside range of 4000 feet. The Wireless option also has the capability of going through structures. Having a lighting system which includes everything in one box; lighting console, dimmer pack, PARs, lamps, gels and stand makes for an easy and convenient setup. The NEW added benefit of Wireless LB Systems has made Lightronics lighting packages even better.

For more information about the Wireless LB Systems from Lightronics please visit on the web at www.lightronics.com or call us toll free at 800-472-8541.
