Power Consumption

Lightronics new **FXLD2512B5I** LED bar is designed to create a flood of colors in an even smooth field with no hot spots. Perfect for color wash applications this bar is versatile enough to be used as an overhead stage light or an energy saving replacement for those old incandescent foot lights. Amazing color, smooth dimming and an even light field adds up to the best LED Bar you can buy. Visit us at www.lightronics.com/p508 for more information.
