Lightronics NEW line of LED Fixtures are "So Bright, You're Gonna Need Shades!" Incredible Power, Quality and Value are yours with these, FLICKER FREE and HD Video Compatible fixtures.

Our new 10 Watt Quad-Color RGBW and 3 Watt Tri-Color Mixing RGB are both "ALL IN ONE" LEDs which eliminate rainbow shadows.

The 3 Watt x 54 Daylight/Warm White fixture gives you the ability to tune in your color temperature and still achieve intense illumination over a large area.

Our 5 Watt x 48 RGBW speaks for itself. Its massive output provides the overwhelming punch you need with the ability to achieve bright pastel colors.

Backed by Lightronics Customer Service, you know you'll get more bang for your buck. Call your Lightronics Dealer today, or visit our website at [www.lightronics.com](http://www.lightronics.com).
