

NEW SC810 Scene Creator

Create (512 Control Channels)

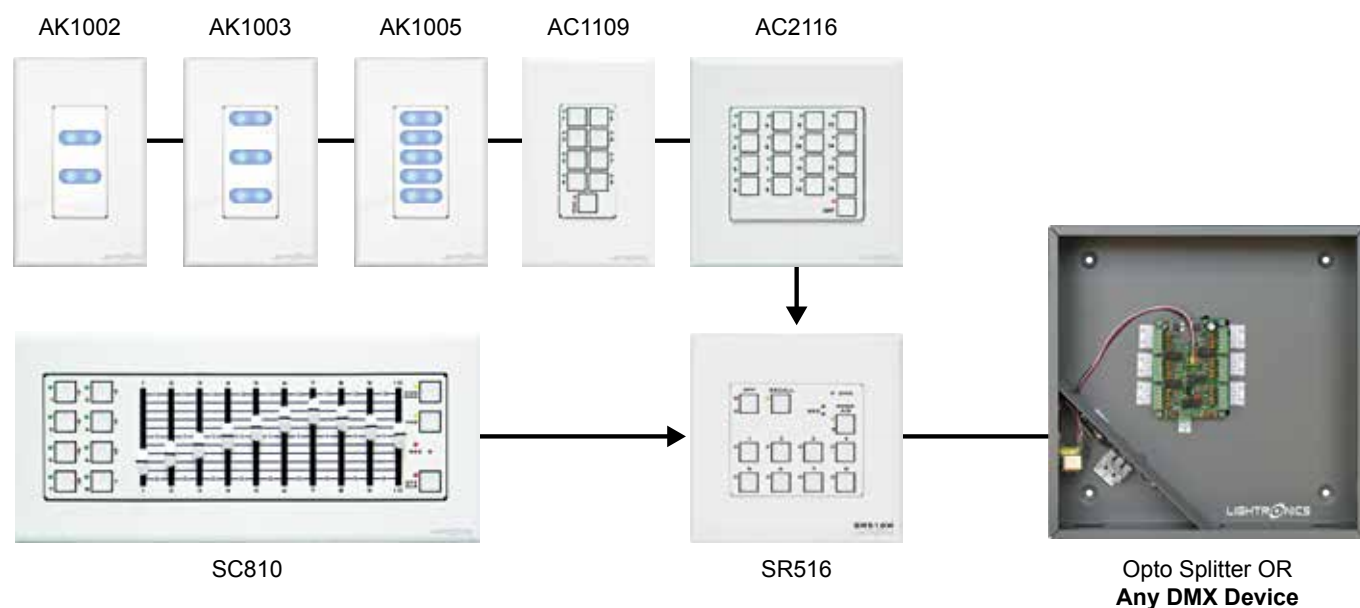

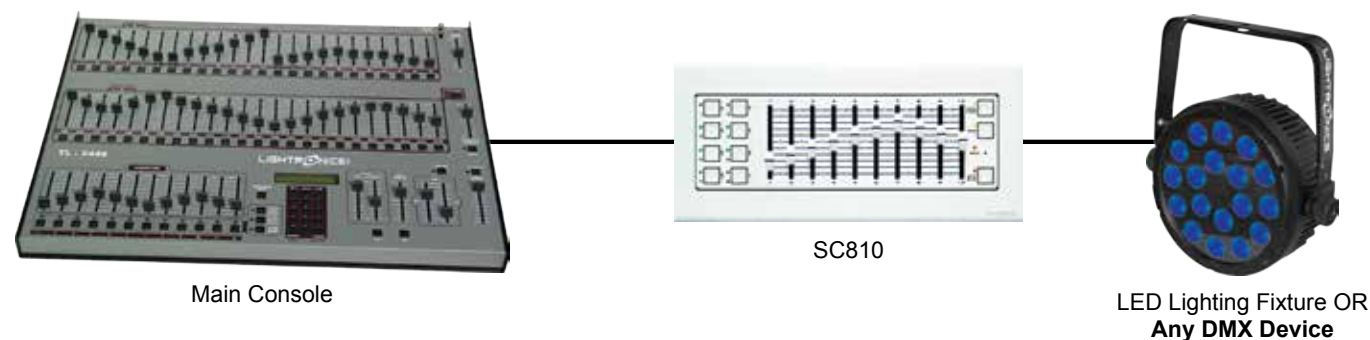

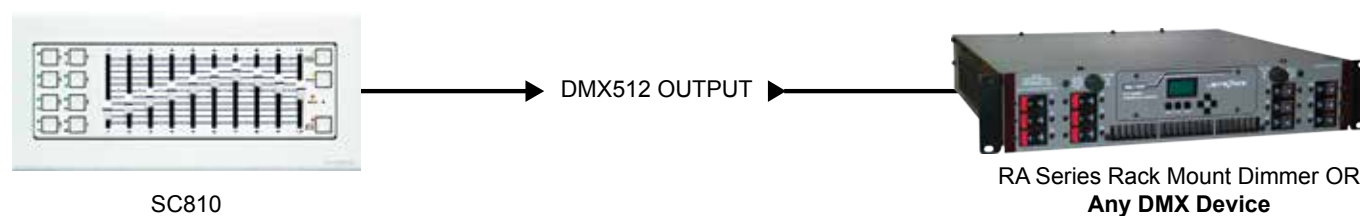

Record (18 Scenes)

Playback (8 Buttons & 10 Faders)

Imagine controlling 512 channels using one button or fader. That is what the new SC810 is designed to do. Use as a stand-alone control system, a backup to your main lighting console or as a master controller interfacing multiple remote stations with our SR516. The SC810 provides you with endless possibilities. Simple to program, easy to operate, and affordable the SC810 is the complete solution to your lighting control needs. Contact your local Lightronics dealer or visit us at www.lightronics.com/p604 for more information.
